SNYDER MAN ACCEPTS NEW RAILROAD JOB

The Signal learns that Mr. R. A. Irving, who has been connected with the freight department for the Remson, Snyder & Pacific Railroad Company for a number of years has resigned that position to accept another line of work for the same company. He will represent them as traveling freight and passenger agent, the place formerly occupied by Walter Davis. The Signal congratulates Mr. Irving on his success.

GENERAL VILLA HOLDS BIG STICK

It looks like General Villa holds the destiny of Mexico in his grasp. President Carranza expressed a desire to turn the government over to the constitutionalists on a guarantee of amnesty for the followers of Huerta. Chief Carranza in the flush of victory wanted to demand unconditional surrender. This caused a halt in the plans. Then Villa began to talk about allying himself with the new president and Carranza begged for peace and promised to exercise leniency.

MORE TROUBLE IN STORE FOR TEDDY

NEW YORK, July 24.—Chairman William Barnes of the Republican state committee announced today that he had instructed his counsel to bring suit for libel against Theodore Roosevelt, based upon Col. Roosevelt's statement of last night, attacking Barnes and indorsing the candidacy of Harvey D. Heman for Governor at the Republican primaries.

W. B. Payne came in Saturday to vote for the good of the order.

MOB AFTER NEGRO FOR MURDER OF WHITE MAN

CLARKSVILLE, TEX., July 24.—Three negroes, one an escaped convict from the Shaw penitentiary farm in Bowie county, were lodged in jail here for the alleged murder of an old white man, two miles from Avery. One of the negroes confessed his guilt and stated that he killed the man to secure his clothing. The negro says he found the old man, who is unknown to the officers and who was travelling through the country alone, lying asleep. The negro wore a woman's gait and crushed the man's head with a stanchion, after which he threw the body in a well.

T. W. Hodges of Route one, five miles west of Snyder came to the Signal office Friday with an average sack of cotton from his field and it fell below the standard of good cotton. The stalk was fairly well developed, well grown, but had only a few squares and young bolls and some of the leaves showed the work of rust or some other plant disease. Reasonable weather, however, is apt to bring it out to be good cotton yet.

News from Mexico on Tuesday night caused Washington to feel like like peace was assured but it did not pass as such, but on Wednesday reports indicated that Carranza is disposed to decline unconditional surrender. There is suspicion that the newspaper men are giving just such coloring to conditions over there as they please. If these Mexican leaders have any sense of honor at all they will come to terms.

A man will sit by the side of his wife in a railroad station for twenty minutes and never say a word to her and next day engage some other woman in conversation till the train comes.

If your acquaintance acts cool or strangely toward you, it is time for you to analyze your bearing toward him.

Want of mutual understanding is often the seed from which grow the rank weeds of strained relation and actual suspicion.

ELECTION DAY COMES CLEAR AND BRIGHT

The election morning came clear and bright following a light trace of rain, four one-hundredths of an inch in the exact Friday with indications for more.

The people seemed to be wide-awake to the importance of the day's work and local candidates were here and there seeing the voters.

The voting at Snyder was done in the County Court Room with C. L. Rife, T. J. Brinson, P. M. Bell and D. F. Pryor as Judges, and Rube Mitchell, W. A. Grimes, H. H. Cotton and J. C. Henson as clerks.

The voters came rapidly throughout the day. There was an interesting or jangling about the polling place, but each voter took a ticket off his ballot and did his own marking and then deposited the intimated will of a free American citizen.

The judges had the counting started as soon as there had been enough votes to start on, but the judges said they could not give out any information until after seven o'clock.

W. H. Mitchell and wife, C. C. Harlow and wife and H. H. Mitchell and wife spent two or three days of the past week looking up Bull Creek and they report the loss. They did not drag the dam out with a net, but used hook and line and enjoyed the excitement of seeing the fish go under.

Farmers in West Texas have but recently given attention to cotton and sorghum grain, but they are ready to say they have come to stay.

The fellow who wanted a few pounds to send his money home to the penitentiary never had a chance to think how much it would cost to build a prison big enough to hold the bunch.

Masters have quieted at the coal mines near Fort Smith, Arkansas, but trouble is liable to break out at a new place any day.
